

# FUN MATHS PACKS

## Available to borrow

The Numeracy committee have created some **Maths Homework Packs** that can be borrowed from the **Parent Corner in the Library**.

These contain a variety of games and activities that are fun and enjoyable to play and help reinforce Maths concepts taught at school.

There are different packs that reinforce different concepts. These include **Basic number facts**, **Measurement and Time**, **Fractions and Decimals** and **mixed packs that cover all of these**.

They are divided into two age brackets **K-2 and 3-6** and can be borrowed for **about a week at a time**. Please see attached borrowing procedures.
